

St Erme Parish Council

We are holding this consultation following concerns from parishioners over the safety and accessibility in the village.

We are aware that parking is limited in some areas and have tried not to make these issues worse with these draft proposals.

If these restrictions or any amended restrictions go forward the process will take a couple of years at least, due to the cost of funding such schemes.

The 'Statutory Consultation' that Cornwall Council is required to hold can be as much as £6,000 without the cost of the works.

We would be required to put the scheme forward to Cornwall Council, who may decline to cover the cost if they feel that the works are not a priority. As no doubt you are all aware that budgets are tight.

The Parish Council may need to cover the cost of this scheme if this is what parishioners wish for us to do.

Thank you for your time, please make sure you complete the comments slip and leave in the box provided.
